ABI Consultants

ABI Consultants provides authorized SEI appraisals and support services world-wide to meet your business improvement objectives.

First-time Baseline Appraisals

ABI services can benefit any size organization. We have experience appraising large multi-national corporations, as well as small independently owned organizations. ABI specializes in first-time baseline appraisals which utilizes a web-based method to collect data about your organization as related to each process area of CMMI® for Development or CMMI for Services.

Our web-based method provides a low cost approach by which to begin your company's process improvement initiative. ABI can customize a web-based collection tool to meet your business needs, providing executive management the data necessary to make informed process improvement decisions.

SCAMPI Appraisals

ABI provides SEI authorized SCAMPI Class A appraisals, plus ARC-compliant Class B and C appraisals to benchmark your company, and will provide individual process area gap analysis on which to build a successful roadmap to achieve your business objectives.

Appraisals:

- ◆ CMMI for Development
 - ◆ Class A
 - ◆ Class B
 - ◆ Class C
- CMMI for Services
 - ◆ Class A
 - ◆ Class B
 - ◆ Class C

Training Needs

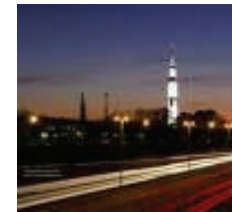

ABI provides SEI authorized Introduction to CMMI for Development training on-site, SCAMPISM Appraisal Team Member (ATM) training, and an Executive Overview (EO). The EO provides management with the tools necessary to implement a successful top-down driven process improvement initiative.
